ABOUT US

MarketHunt began its journey in becoming the leading supplier of packaging items. With operations in the Middle East, Asia and the UK, we endeavour to supply premium quality products with distinct heritage. Through committed partnerships and dedication, we aim to deliver an unmatched service.

MarketHunt is your ideal packaging partner. Through our vast scope of expertise, we guarantee to supply products that are of the best quality. Our partner factories are well built and accredited ISO9001, with tough quality management systems in place. Our aim and emphasis has always been on integrity, quality, punctuality and value for money.

02 REFUSE SACKS

Have your

**We are able to offer private
label on this item!**

Heavy Duty Refuse Sacks

Garbage bags, also known as refuse sacks, is the most common method of hygienically collecting rubbish. Our heavy duty refuse sacks for waste disposal come in a variety of sizes, thicknesses and colours depending on the needs of your business.

Designed with convenience in mind, our premium garbage bags, and compactors are ideal for heavy loads as they will not tear or puncture. Refuse sacks are also ideal to store your unused items whilst providing protection from dust.

*Available in a variety of colors.

Bag on Roll

Supplied on a roll for your convenience and ease of use, these black bin bags are perfect for use in industrial and domestic environments- whether you're cleaning or clearing out a space, or looking for a convenient way to line your bins.

Produced from 100% recycled material.
100% recyclable.

03

PLASTIC BAGS & CARRIERS

Have your
own **Brand?**

**We are able to offer private
label on this item!**

Carrier Bags

We produce the highest quality vest carriers for use in grocery stores and supermarkets. These bags offer better value than any carrier bags we sell.

Our bags are 100% recyclable and 100% reusable, making them ideal for both commercial and private use.

*Available in a variety of colors.

04

BAG FOR LIFE

Bag for Life

A more popular option in today's climate are our bags for life. These are made from recycled plastics. A Bag for Life is a practical reusable shopping bag that's great for carrying heavy, bulky shopping. Because of their strength, the bags can be reused many times by shoppers whilst provides an eye-catching way to promote any business or brand. Each bag provides a huge canvas for full-colour print in bold designs and Pantone matched branding. Upon request, we can add additives to ensure the bags degrade quicker.

05 HINGED SAUCE CUP

Hinged Sauce Cup

Our range of premium quality hinged sauce cups are microwaveable, clear, and produced from durable food grade Polypropylene PP material with an attached lid, providing consumers with a clear view of its contents. Our hinged sauce cups are leak-resistant and are durable to hold hot and cold takeaway dishes.

They are also dishwasher and freezer safe. Widely used in the catering industry for serving sauce/chutney, food tasting, and placing dressings within a larger salad container.

These sauce cups feature a hinged lid for ease of storage, speed of packing and safe transportation.

A hand is shown using a large, dark knife to cut a pizza in a rectangular foil container. The pizza is topped with melted cheese, tomato sauce, and various toppings. The container is placed on a reflective surface, and another similar container is visible in the background. The entire scene is overlaid with a semi-transparent blue filter.

06

FOIL CONTAINERS

Foil Containers

Crafted from aluminium, our premium foil containers boast superb insulation properties - keeping food warm from the time its cooked, to your customers' taking their first bite. These containers can be rinsed, then recycled with standard curb side waste collections.

The design and material of these containers ensure that they are leak-resistant, meaning that they perfect for serving everything from cakes to curries, without the risk of any spillages or wasted food.

The foil containers are stackable, and therefore great for saving storage space.

07

RIPPLE CUPS

Ripple Cups

Great for serving tea and coffee, they are insulated to keep your beverage warm while protecting your hands from the heat. These Ripple paper cups are popular in hot drinks cup in the market and for good reason. They perform well and are of fantastic value.

The ripple effect enables a good grip, as well as protects your hands from the heat.

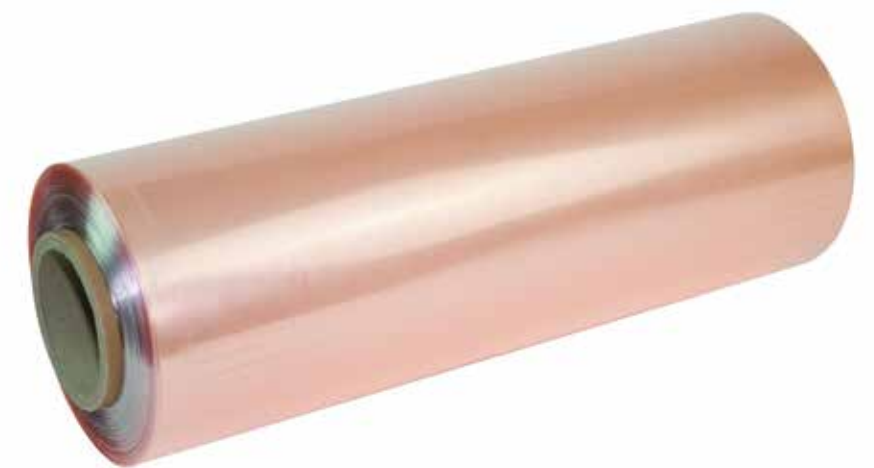

The re-sealable lids for these cups can also be supplied separately.

08

FOOD WRAP

Food Wrap

Our food wrap also known as meat wrap is ideal for wrapping food, fresh meats, baklava, sweets and other products. The micron thickness can be tailored to your requirements. Each roll is delivered in its own box. The product has high stretch and high tear resistance, consistent thickness, excellent clarity and is suitable for both hand wrapping, or with a tray over wrapper. Contains anti-fog properties to ensure presentation is not compromised.

09 PALLET WRAP

Pallet Wrap

The elasticity of the wrap provides increased security and protection to goods during haulage or storage. Our pre-stretch films are stretched during the manufacturing process, and then re-winded onto rolls. This results in a lightweight film which is ideal for wrapping metal cages. Available in flush or extended cores.

Coloured stretch films such as blue and green are a popular choice in the catering industry as it enables food pallets to be distinguished from other non-food pallets. If you are transporting a high value or content sensitive pallet, then our black wrap would be an apt option.
